

SUMMER STUDENT – ENGINEERING

Crew Energy Inc. is pleased to announce a summer employment opportunity for a Student pursuing a degree in Engineering. The position will involve rotation through Crew's technical and operational teams in the Engineering group, including Drilling and Completions. This is an exciting opportunity to be part of a dynamic team actively engaged in developing a world class hydrocarbon resource in Western Canada. The individual will report to the Manager Engineering but will be mentored by individual technical managers on specific projects within each discipline.

Knowledge, Skills and Abilities Required

- Working towards a degree in Engineering
- Excellent computer skills with proficiency in Microsoft Office applications
- Highly organized with strong analytical skills and attention to detail
- Enthusiastic with excellent interpersonal and communication skills
- Motivated and capable of working independently with minimal supervision
- Inquisitive nature, quick to learn and apply knowledge
- Collaborative mindset and enjoys contributing to team goals

Cover letters and resumes can be submitted via email to: crew.careers@crewenergy.com

Please include the name of the posting in the email subject line.
