

SUMMER STUDENT – SURFACE LAND

Crew Energy Inc., a mid-sized oil and gas exploration and production company, is currently seeking a summer student (May –August) with a keen interest in gaining exposure to the Oil and Gas industry. Crew is looking for a highly motivated individual with a focus in Surface Land to collaborate with members of our team to gain experience in surface land administration, records management, and exposure to Canada Student Action. Ideally, the candidate will be enrolled in SAIT's Energy Asset Management or a similar program with suitable education.

Knowledge, Skills and Abilities Required

- The student must be registered as a full-time student the current academic year and returning to school on a full-time basis in the next academic year.
- Excellent computer and analytical skills, as well as attention to detail
- Highly organized, motivated, and capable of working independently with minimal supervision
- Inquisitive nature quick to learn and apply knowledge
- Enthusiastic, with excellent interpersonal and communication skills
- Enjoys working both independently and as part of a team, contributing to shared goals

Cover letters and resumes can be submitted via email to: crew.careers@crewenergy.com

Please include the name of the posting in the email subject line.
